LETTER OF INTENT

Re: Collaboration between Klangforum Wien and November Music 2027

To whom it may concern,

On behalf of Klangforum Wien, I am pleased to confirm our intention to collaborate with November Music on a new international project as part of the 2027 festival programme.

Together, Klangforum Wien and November Music intend to launch an **international open call for composers**, resulting in a programme of approximately 70 minutes of new music. The selected programme will consist of five to six works, including one new commission of approximately 15 minutes and a number of works of approximately 10-12 minutes each.

Klangforum Wien intends to perform the resulting programme at **November Music 2027, on 26 November in De Grote Kerk in 's-Hertogenbosch**, as well as in **Austria**. In this way, the collaboration will provide the selected composers not only with the opportunity to develop and present new work with Klangforum Wien, but also with an international performance platform beyond the festival itself.

We greatly value this collaboration with November Music and our shared commitment to supporting contemporary composers, creating opportunities for new artistic voices and enabling new music to reach audiences across national borders.

We look forward to developing the open call together and to bringing the resulting programme to audiences in the Netherlands and Austria in 2027.

Yours sincerely,

Peter Paul Kainrath
Artistic Director
Klangforum Wien
